There's an electric hook-up cable provided, so you can use it if you wish, but it isn't essential. The leisure battery and solar panels on the roof will run everything while you're away – the only thing that won't work on the leisure battery are the 3 pin 240v sockets, but there are USB sockets to charge your phones.

We charge per day and you can collect the van anytime from 9am and it must be returned by 4pm on your last day

We operate a full to full fuel system so please refill it ready for the next customer before you return it to us
